Gentlemen:-

We acknowledge receipt of your circular requesting catalogs from concerns engaged in the American seed trade, and we wish to advise that we do not issue any catalogs, as we are not wholesale or retail dealers in seeds. We are import commission agents and we sell to the large seed importers for account of foreign concerns various kinds of seeds, such as forage seeds, bird seeds and spice seeds. Below is a list of articles in which we specialize.

Trusting that the above will fulfill your requirements,
we remain

Yours very truly,
